# SETTING THE STANDARD

---

## Over 30 Years of Manufacturing Innovation and Custom Design

Standard Metal Hardware Manufacturing Ltd. is a leading manufacturer of commercial and custom architectural door hardware in North America. Since 1989, we have been manufacturing from our facility in Toronto, Canada, committed to setting the standard for innovation and design.

We work closely with architects and designers around the world to create some of the most intricate and visually appealing custom architectural door hardware products using a variety of materials, styles and finishes. We supply a network of distributors across North America with an extensive product line including door pulls, grab bars, kick plates, door guards, door stops, patch locks, bolts, latches and more.

Our custom manufacturing is done in-house and is our way of controlling our production to guarantee that the products meet the highest level of quality and craftsmanship. Our products have been used on thousands of recognized building projects including hotels, airports, hospitals, schools, retail, office and other institutional buildings.

It is our vision to deliver door hardware solutions that enhance the appearance, security and value of every building project. Share your vision with us and we will help you bring it to life.

# CUSTOM DESIGNED HARDWARE

Our team of experts will work with you to design and manufacture custom hardware solutions to fit your exact specifications. Share your idea with us and we will help bring your vision to reality.

## IMAGINE

Create your product idea as a doodle, sketch, or technical drawing. Describe its primary purpose and main features including size, materials and finish.

## DESIGN

Collaborate with our team of experts to refine your idea and bring your vision to life using the latest technology and manufacturing techniques. Our team will create a 3D CAD model of the product for your approval.

## BUILD

Our custom manufacturing is done in-house and is our way of guaranteeing that the products we create meet the highest standard for quality and craftsmanship.

## APPLICATION IDEAS

- Designer Door Pulls
- Custom Door Plates
- Custom Patch Locks
- Custom Grab Bars
- Door and Frame Guards
- Laser Etching & Engraving

## MATERIALS

- Stainless Steel
- Aluminum
- Brass
- Copper
- Wood
- Leather

## OPTIONS

- Custom Bends
- Specialty Cut-Outs
- Ink-fill Engraving
- Laser Etching
- Custom Castings

**STANDARD METAL  
HARDWARE**

Official Canadian distributor of  
Fantom Hardware

**NO TRIP  
HAZARD.  
FULLY  
CONCEALED.  
HOLD-OPEN  
FEATURE.**

### DESCRIPTION

The Fantom Doorstop is a fully concealed magnetic doorstop that includes a hold-open function. The Fantom Doorstop system provides a high quality innovative solution for all project application requirements, alleviating trip hazards whilst maintaining a modern desirable finish. The concealed rare-earth magnet technology ensures exceptional mechanical functionality.

There is a Fantom Doorstop for most doorstop applications, including:

- Internal hollow and solid doors (as shown)
- Sliding/Barn doors
- Pivot doors
- Aluminium and hollow extrusion doors (as shown)
- Fire doors
- Entrance/Security doors (see Defender)

### SKU'S

#### FANTOM DOOR STOP

# ANTIMICROBIAL HARDWARE

Protect clients and staff from exposure to harmful microorganisms, bacteria and mold. Antimicrobial clear coating available on any door hardware product or design.

Harmful microorganisms reside on every surface we touch. Protecting high touch surfaces with an antimicrobial coating can interrupt cell multiplication and prevent the spread of infectious diseases. Independent laboratory results show a significant decrease in microbial population on treated surfaces. These coatings are safe, nontoxic and formulated to provide protection over an extended period of time. High traffic or public use areas are ideally suited for antimicrobial clear coated door hardware. Hardware options are available to fit any building use and design.

## BENEFITS

- Inhibits the growth of harmful microorganisms, bacteria and mold
- Protects against the spread of infectious diseases
- Retains antimicrobial properties under normal use conditions
- Suitable for healthcare, education, food service, restrooms, retail, office
- Environmentally friendly

## FEATURES

- Available on any door hardware product or design
- Applications include door pulls, push plates, hand rails, grab bars
- Superior chemical, stain and scratch resistance
- Can be formulated for exterior durability

MICROORGANISM	NUMBER OF LIVING BACTERIA	
	0 hrs (Start)	After 24 hrs
<b>Escherichia Coli</b>		
Conventional Coating	380,000	27,000,000
Antimicrobial Coating	380,000	<100
Antimicrobial Coating after 5 washings	380,000	<100
<b>Staphylococcus Aureus</b>		
Conventional Coating	380,000	1,100,000
Antimicrobial Coating	380,000	<100
Antimicrobial Coating after 5 washings	380,000	<100

# FIRE RATED HARDWARE

A fire rated opening is part of a building's fire protection system that provides two distinct functions: reduce the spread of fire and enable safe egress from the building in the event of a fire.

For an opening to qualify as fire rated, the door, jamb and hardware must be listed with an agency that is in compliance with NFPA Standards, building codes and any local ordinances (with the exception of kick plates mounted below 16" from the bottom of door).

Fire rated door hardware includes flush bolts, surface bolts, astragals, hinges, lock/exit devices, door closers, door coordinators, glass lites and door viewers. In addition, any add-on components including protection plates, edge guards, frame guards must be listed if they are to be used on a fire rated opening.

## PRODUCTS OFFERED

SMH offers a variety of fire rated hardware for use with fire rated openings.

- Edge Guards
- Door Protection Plates
- Edge Guards
- Frame Guards
- Manual Flush Bolts
- Automatic and Self Latching Flush Bolts
- Surface Bolts
- Door Viewers

## ABOUT OUR CERTIFICATIONS

SMH Fire Rated Products are tested, evaluated and listed by Intertek (WH-ETL) and Underwriters Laboratory (UL).

The WH-ETL and UL Certification Mark is relied on by code enforcement officials and buyers as an assurance that products meet regulatory requirements. It is a key differentiator for products within the architectural door hardware market.

SMH Fire Rated Products are evaluated by Intertek and UL for compliance with the following standards: CAN4 S104 (1985), UL 10(b) (2008), NFPA 252 (2008), NFPA 252 (2012), CAN / ULC S104 (2015), UL 10(b) (R2015)

## ABOUT INTERTEK & UL

Intertek and UL are both independent testing organizations known as a Nationally Recognized Testing Laboratory (NRTL) and provide complete testing and certification services for a wide variety of products to verify that they meet certain safety requirements during use, or in the event of a fire or other circumstances.
